JULIAN — VINCENT VAN DUYSSEN 2026

1—
6

The Julian modular system stands out for its imposing presence and generously deep seating, conceived to offer comfort and adaptability to individual preferences through carefully calibrated cushions and lumbar supports. The cushioning is carefully designed to provide a soft, elastic seating experience while maintaining a clean and elegant aesthetic. The padding combines densities and dimensions engineered for balanced ergonomic support, while the distinctive piping unifies the aesthetic. The completeness of the modules - from terminal and central elements to islands and newly designed armrest-coffee tables - opens up endless compositional possibilities, allowing Julian to adapt naturally to any environment, interpreting space with balance and freedom. Julian pairs seamlessly with the Eter coffee table, also by Van Duysen, whose curved version allows for more enveloping and softly rounded compositions.

This symbol shows that the product has removable upholstery. Only qualified personnel can remove the upholstery of some of our products. If this information is pertinent, it will be included in the warnings section.

This symbol shows that the product is available on request in a fire resistant version that complies with the standards BS 5852 and TB 117-2013. The buyer is responsible for checking to make sure that the product is suitable and compliant with the requirements for the designated use and the current applicable laws and standards for the destination and use of the product.
