MAYLIS — CHRISTOPHE DELCOURT 2025

1—
3

The Maylis coffee table fully embodies Delcourt's design philosophy, defining movement through shapes and lines with remarkable dynamism. The curved top offers a constantly changing perspective from every point of view. The interaction between the geometries continues with the three glossy aluminum, iridium grey or iridium brown support legs, shaped like half-moons, which create a visual contrast with the tabletop materials, all meticulously chosen for their distinctive characteristics, ranging from marble and tempered glass to glossy lacquer finishes. Completing the Maylis coffee table collection is the wooden version with rounded shapes, characterized by three legs connecting the top and base.
